Projects

SociaLista - socia-lista.com **:**

Team Developed Application

- React | AWS | Redux | Node.js | Express | PostgreSQL | Express-Session | Material-UI
- Social media application giving users the ability to make posts, share images, upload music/video through AWS/S3 services. Built a snapchat story like feature for users. Brought in a variety of APIs giving users access to trending news and hashtags. Brought in Material-UI for a pleasant user interface.

The Music Connection - themusicconnection-kd.com **:**

Personal Application for Business

- React | MongoDB | Redux | Node.js | Express | JWT | Bootstrap | LoDash | Moment.js | Gravatar
- Communication platform where I as an instructor can communicate with students, and students can interact with one another. Students can also share piano pieces that they have learned or are working on. Fully responsive design. Created a RESTful API to communicate between the front-end and back-end.

Education

University of Texas at Arlington

Information Systems and Operations Management
